## **DETAILED ACTION**

### ***Response to Applicant's Amendment***

1. Based upon the submitted amendments received 3-7-2007, examiner notes that claim 13 has been amended.
2. Examiner withdraws all rejections to all claims.

### ***Allowable Subject Matter***

3. **Claims 1-21** are allowed over the prior art of record
4. The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. (4653117). Although Heck discloses varying the demodulation frequency to move signal spectral content away from the DC point, it would not have been obvious to set the frequency offset to the 'chip rate' of a known digital-modulation signaling protocol in a direct conversion receiver.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
